Decide with Confidence

www.toprating.at

Dun & Bradstreet is the world's leading source of business information and insight, enabling companies to Decide with Confidence since 1841. D&B's global commercial database contains more than 220 million business records from over 200 countries and 95 language territories. The database is enhanced by D&B's DUNSRight® Quality Process, which transforms the enormous amount of data collected daily into decision-ready insight. Through the D&B Worldwide Network – an unrivaled alliance of D&B and leading business information providers around the world – customers gain access to the world's largest and highest quality global commercial business information database.

The D&B Rating turns information into a brief guide of how a business is performing. Derived from the D&B Failure Score, the D&B Rating reflects a company's financial strength and the likelihood of it failing.

The D&B D-U-N-S® Number (Data Universal Numbering System) is a nine-digit identification sequence allowing companies to be identified across the world. Companies can be matched up to parent companies, subsidiaries, headquarter locations and branch operations. This code gives data a new level of transparency.

* Risk Indicator 1 indicates a **minimum risk of business failure** at the stated date. Scale: 1=lowest risk, 4=highest risk. The D&B rating is a statistical evaluation based on the company data available to D&B.
